

your future made with IBM

IBM Research is hiring

We live in a moment of remarkable change and opportunity. Data and technology are transforming industries and societies, ushering in a new era of Cognitive Computing. IBM Research is a leader in this worldwide transformation, building on a long history of innovation.

For more than seven decades, IBM Research has defined the future of technology. Our scientists, among them six Nobel Laureates and six Turing Award winners, have produced ten U.S. National Medals of Technology and five U.S. National Medals of Science. Along the way we helped put a man on the moon, defeated Kasparov at chess, and built a *Jeopardy!*[®] champion named Watson.

At IBM, you can achieve what others think is impossible. And in doing so, you'll play a significant role in shaping the future. Join us and discover what you can make of this moment.

What will you make with IBM?
