THE DATA WAREHOUSE
BUILT FOR THE CLOUD

Enabling every organization with the power, flexibility and instant elasticity to be data-driven.

AT SNOWFLAKE WE ARE:

Passionate, Innovative, Ambitious

We challenge ourselves at Snowflake to rethink what's possible for the data warehouse and deliver on that. We're looking for people who share that same passion and ambition.

Snowflake is hiring top database developers from Europe and around the world to grow our teams in San Mateo, Seattle, and our newly formed European Database R&D Center located in Berlin.
